

E-commerce Integration Framework

Microsoft Dynamics 365
Business Central

Overview

E-commerce Integration Framework is an application created by the Intelligent Systems team, allowing you to connect any e-commerce platform to your Microsoft Dynamics 365 Business Central.

The tool assists businesses in the smooth transfer of information by utilizing an API (Application Programming Interface) simple installation and setting up data mappings in Dynamics 365 Business Central.

It is a perfect tool for:

- Organizations that want to establish integration between an e-commerce platform and Dynamics 365 Business Central.

E-commerce Integration Framework

Benefits:

- Facilitates integration with B2B and B2C e-commerce platforms
- Automates the information flow between the e-commerce platform and Dynamics 365 Business Central
- Flexible Tables data mapping setup for standard and custom Tables in Dynamics 365 Business Central
- Reduces time and effort for manual data transfers and eliminates human errors

E-commerce Integration Framework is available on Microsoft AppSource.
