

Bulgarian EDI Printforms

Who is it for?

EDI Printforms is an advanced app that enhance the EDI Integration application. It is available for the Bulgarian market and works for companies who are already using the Bulgarian localization for Dynamics 365 Business Central.

Designed by Intelligent Systems, the application provides ready-to-use print forms to companies who are using EDI. The structure and content of the generated print forms are different depending on the FMCG chain and industry requirements.

It is a perfect tool for:

- All organizations that are working intensive with big FMCG chains.
- All companies operating in the Food & Beverage industry.

The application is integrated with Dynamics 365 Business Central.

EDI Print forms is available on Microsoft AppSource.

How will you benefit from it?

A woman with long dark hair is seen in profile, looking at a computer monitor. She is wearing a dark top. The background shows an office environment with other computer monitors and people working. A blue semi-transparent banner is overlaid on the top left of the image, containing the text 'How will you benefit from it?'. The overall lighting is soft and professional.
