Bulgarian Localization and Fiscalization for Retail

for Microsoft Dynamics 365 Business Central

Bulgarian Fiscalization for retail

intelligent systems

Overview

Bulgarian Fiscalization for Retail for Microsoft Dynamics 365 Business Central, developed by the Intelligent Systems team, is an extension to the **Retail app** and the Dynamics 365 Business Central standard sales and accounting functionalities. The application allows a predefined layout of a fiscal receipt to be sent to the connected fiscal printer when posting a sales transaction in the Retail app. The receipts print forms follow the requirements of the Bulgarian legislation and the Bulgarian Tax Authorities and contain all mandatory data.

The established integration could be an effective way to support and automate the enforcement of legal requirements in your sales process.

Bulgarian Localization and Fiscalization for Retail allows a predefined layout of a fiscal receipt to be sent to the connected fiscal printer when posting a sales order in Business Central. The receipts print forms follow the Bulgarian fiscal regulations and contain all mandatory data.

It is the perfect tool for:

- Small and mid-sized retailers
- Wholesalers with Point of Sales (POS)

Bulgarian Localization and Fiscalization for Retail is available on Microsoft AppSource.
